

Choo Choo!

ALL ABOARD THE MOONEYTRAIN

We are excited to introduce our amazing prize giveaways and "BIG" milestone prize draws. Cash giveaways along with amazing prizes will be given away to our holders at random.

Our prize draw giveaways will also involve our community as they will be able to vote on which giveaway prizes they would prefer.

TOKENOMICS

- **NAME:** MOONEYTRAIN
- **SYMBOL:** \$MNYTRX
- **DECIMALS:** 9
- **TOTAL SUPPLY:** 1,000,000,000

DRIP

We don't TAX like everyone else, we DRIP® (Direct Reinvestment Plan) All transactions have a 15% DRIP® with certain percentages going to marketing, liquidity, buy backs, manual burns and reflections via AirDrops directly to all holders.

6%

of each transaction goes to the DRIP Wallet for Marketing & Giveaways.

6%

of each transaction goes to LP to increase the price floor.

3%

of each transaction goes back to our amazing holders.

SUMMARY

DRIP

The 15% DRIP consists of:

- 6% (BNB) to DRIP Wallet for Marketing & Giveaways
- 3% redistributed to holders
- 6% goes to Pancakeswap LP

Auto Rewards to Holders

3% redistributed to holders in MNYTRX tokens.

DRIP Wallet

6% to DRIP Wallet (Marketing/Prize Giveaways), will be divided to below wallets.

Rewards Wallet

3% (BNB) of each transaction will go to the Rewards Wallet for giveaways, & random airdrops.

Rewards

Manual Airdrops to holders.
Prize Giveaways (physical products or crypto)

Marketing Wallet

3% (BNB) of each transaction will go to the Marketing Wallet and being used for marketing campaigns

What is 3D Verification® ?

3D Verification® uses three contract scanners to verify and test for bugs, leaks and vulnerabilities helping us to keep your trades 100% safe as humanly possible making sure we are all green to go.

How do GiveAways work?

A snapshot is taken a few hours (announced by team in TG) before the giveaway (prize airdrop) will start.

To be able to qualify to enter into our giveaway prizes you must hold a minimum of \$50.00 of \$MNYTRX tokens at the time of the snapshot.

Automatic LP

6% will be automatically added to the LP in terms of both BNB and MNYTRX in a 50/50 Ratio.

This will increase the price floor constantly and keep holding values high.

Buy Back

Manual buy back on the dip decided by the team.

The reason why we do manual buy backs is simple. Automatic buy backs can be sniped by bots and with the manual buy back we have control on when we buy back so we minimize the risk of bots sniping and damaging the chart.

Ownership Renounced?

No, we need to retain ownership in order to make necessary adjustments to the token, such as fixing bugs and updating new features in the near future.

Our contract only allows us to perform maintenance tasks for the health and longevity of this project.

Burn

Manual burn determined by milestones reached and the community votes.

Manual Burns will be announced. This will allow control for a steady deflationary token that rewards the holders over time when milestone market caps are reached.

Having Automatic burns can be manipulated due there being some very clever programmers using tools that can pounce on vulnerabilities and destroy the experience for all.

Train joke

How would you work out how heavy a whale is?

You would take it to a whale weigh station...
